PROFESSIONAL EXPERIENCE

Front-End Developer

Unique Destination Travel Network 🌐

Mar 2025 – Present

Cairo, Egypt

UDTN is a leading B2B travel company with a strong presence in the holy cities of Saudi Arabia, specializing in delivering large-scale Hajj and Umrah experiences. As part of the IT team, I contribute to building and maintaining multiple internal systems that support the company's operations and growth.

My responsibilities include:

- Developing responsive and scalable front-end applications using modern frameworks (Next.js, React, etc.).
- Collaborating with back-end developers and designers to create seamless user experiences.
- Working on multiple systems including booking management, supplier dashboards, and customer-facing portals.

Front-End Developer

Tjaara - تجارة 🌐

Aug 2024 – Mar 2025

Cairo, Egypt

- Delivered responsive and high-performance user interfaces for dashboards, e-commerce platforms, and websites tailored to the Saudi market.
- Developed and optimized web applications using React and Next.js to enhance user experience and business functionality.
- Collaborated with cross-functional teams on project planning, UI/UX enhancement, and code quality assurance.
- Contributed to the growth and scalability of Tjaara's digital products by creating user-centered, maintainable, and efficient solutions.

Front-End Developer <i>X-event (freelance)</i> • Developed an advanced Event Management System to streamline event creation, publication, and management, featuring customizable agendas and media upload capabilities. • Implemented seamless event search, ticketing, and payment processing, with secure financial management through integrated bank accounts and wallets. • Designed role-based access control, supporting admins, owners, and speakers with tailored permissions for efficient event coordination. • Enhanced user experience with real-time notifications, dynamic seating charts, and customizable attendee certifications.	Apr 2024 – Nov 2024
---	---------------------

Front-End Developer <i>TB3arbi (freelance)</i> • Led the front-end development for a travel event planning platform using Next.js. • Ensured a seamless user experience by designing and implementing user-friendly interfaces. • Worked closely with the backend team to optimize performance and ensure the successful delivery of the project.	Oct 2023 – Nov 2023
---	---------------------

Front-End Developer <i>HYPER SCADA (freelance)</i> • Developed and maintained user-friendly web applications using React.js, focusing on CRUD operations for efficient data management. • Created intuitive data visualization tools, including graphs and charts, to help businesses analyze and interpret their data. • Delivered clean, maintainable code, and adhered to best practices to improve the scalability and reliability of freelance project	Dec 2023 – Feb 2024
---	---------------------

EDUCATION

Bachelor's degree in Agriculture Engineering <i>Ain-Shams University</i>	2022 Cairo, Egypt
--	----------------------
